

# SONGQIANG CHEN (陈崧强)

M.Eng Student majoring in Software Engineering  
School of Computer Science, Wuhan University, China

## RESEARCH INTERESTS

My research interests involve both AI4SE and SE4AI. Specifically, I devise deep learning-driven techniques to facilitate intelligent software engineering (for code, document, and linkage processing). Meanwhile, I explore efficient and systematic testing techniques (mainly based on Metamorphic Testing) for intelligent software (e.g., DL frameworks, QA software, Autonomous Driving systems, and translators), where I particularly value testing efficiency (e.g., on oracle & TCP) and diversity.

## SELECTED PERSONAL HONORS

2020 - 2021 Master National Scholarship (Rank 1/264 in CS@WHU) - Ministry of Education of PRC

2019 CCF Elite Collegiate Award (ECA2019) - China Computer Federation (CCF)

2018 - 2019 National Scholarship - Ministry of Education of PRC

2017 - 2018 National Scholarship - Ministry of Education of PRC

Other scholarships awarded by Wuhan University, Huawei, Guotai J&A Securities, etc.

## EDUCATION

School of Computer Science,  
Wuhan University | 2020-2023

Master of Engineering (MPhil),

Major: Software Engineering,

Supervisor: Prof. Xiaoyuan Xie,

Avg. Score: 93.3/100

School of Computer Science,  
Wuhan University | 2016-2020

Bachelor of Engineering,

Major: Computer Science & Tech.,

GPA: 3.87/4.00

## SERVICES

PC Member in ASE 2022

Artifact Evaluation Track.

(more assistant review experience c.f. homepage)

TA of Compiler Principle course  
in CS @ WHU (2021 Spring).

## RELEVANT SKILLS

English: IELTS 7.0 (sub  $\geq$  6.0)

Comm & Leadership: Experience  
as a class / SU leader and in co-  
advising research groupmates.

PL: Python, C++/C, Java

Misc: Office, PS, Setup of Device  
/ Software (skilful!), etc.
